1.16 - 1.22 Exercises

1.16) 2nd Level — can't start with a number
hook & ladder — can't have "&"

1.17) They are vague. Identifiers should help anyone
IDENTIFY the variable/class/etc.

1.18) Hello and HELLO are different. Upper/lower case
are read differently by Java.

1.19) It is often difficult to understand.
"How are you doing today"
can mean "How are you?"
or *today as an activity.

"I like your coat"
→ coat as in jacket?
→ coat as in coat of paint?
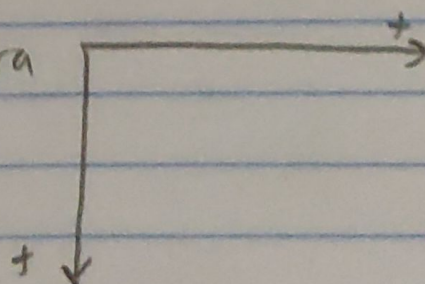

1.20)
Logical
Runtime
Compile-time
Logical
